EXPERIENCE

AS/400 Training One Smarter Inc.

- Completed hands-on training in AS/400 (IBM i) environment
- Worked with DDS, Subfiles, and database handling
- Gained practical exposure to enterprise systems and workflows
- Developed understanding of legacy business applications

PROJECTS

AI-Powered Finance Analyzer — Django, DRF, PostgreSQL, Pandas Developed a full-stack finance management system using Django and Django Templates. Processed CSV/bank statements using Pandas for real-world data handling. Implemented spending analysis, overspending detection, and subscription tracking. Generated financial insights and reports to help users make better budgeting decisions. ([Live](#))

Blog Website — Django, Cloudinary, Templates Developed a dynamic blog platform using Django and Jinja templates for server-side rendering. Implemented built-in Django forms for content management and user input handling. Utilized Django admin panel for efficient backend management of posts. Integrated Cloudinary for media storage and optimized image handling. ([Live](#))

CERTIFICATIONS

- Django Certification — GFG Nation Skillup
